
ANNUAL REPORT
of the
Town of Scarborough
1989

COVER PHOTO: ***(file photo)*** **THE RICHARD HUNNEWELL HOUSE**

Cumberland County's oldest house, known as the "Old Red House" was built in 1673 by Lieutenant Richard Hunniwell (original spelling), the noted Indian fighter. The house was built on the south side of the Nonesuch River, near Jamaica Mill, and was moved to its present location by Richard's grandson, "one-armed Roger". In 1752, Roger was paid 4 shillings for the use of his house for a school.

LETTER OF TRANSMITTAL

TO THE HONORABLE TOWN COUNCIL AND CITIZENS OF THE TOWN OF SCARBOROUGH

It is with great pleasure that I herewith submit the Annual Report for the year 1989, in accordance with the provisions of the Charter of the Town of Scarborough.

CARL L. BETTERLEY
Town Manager

Detailed reports of the Town's business, including the audit report for the year 1989, will be found in other sections of this report. One new report will be found in this year's Town Report. We are pleased to have the activities of the Scarborough Historical Society included in the report this year.

"One of my greatest rewards, as your Town Manager over the past ten years, has been the willingness of you, the citizens, to serve your community in so many ways. I thank the residents of Scarborough for their interest and support of the Town Government and urge them to continue this activity."

Following are highlights of 1988-1989:

FINANCE

A computer committee, made up of representatives of the Town and School, evaluated bids received from many vendors. The committee sought and selected a system which could connect the Town's and School's finance offices as well as one which could connect all of the schools to the Superintendent's Office.

We look forward to all of the additional benefits the new Unisys 6050 Computer, purchased from Gemini Systems, Inc., will provide.

FIRE PROTECTION

Two new fire stations have been constructed, one at Pine Point and one at North Scarborough. In addition, the station at Oak Hill has been expanded and renovated. The new stations are part of an overall improvement program which includes improvements in training and equipment, safety inspections, and new ordinances.

The entire Fire Department has worked hard on these improvements in an effort to successfully upgrade fire service in Scarborough.

COMMUNITY SERVICES

In addition to more attention to grounds maintenance of town buildings, school buildings and ball fields, significant progress has been made on the grounds of the Town's historic Hunnewell House. On the Old Blue Point Road, two new ballfields and an all purpose field are being constructed next to Peterson Field. A new skating rink at the school complex at Oak Hill has been very successful.

Future access to the ocean has been enhanced with the acquisition of additional land at the Town Landing at Pine Point. Many Townspeople worked on this project and we were also fortunate to receive two state grants.

LIBRARY

After years of discussion and planning, significant steps have been taken towards the construction of a new public library. This has truly been a community wide project. The library has made good progress in achieving its fund raising goal of $900,000.00 for this project.

PUBLIC SAFETY

With the support of the citizens, the Police Department will have a new station. The new facilities should help the Department with its ever increasing work load.

I wish to take this opportunity to express my sincere appreciation for the support and cooperation of the Town Council, Department Heads and fellow employees this past year. One of my greatest rewards, as your Town Manager over the past ten years, has been the willingness of you, the citizens, to serve your community in so many ways.

I thank the residents of Scarborough for their interest and support of the Town Government and urge them to continue this activity.

Respectfully submitted,
Carl L. Betterley, Town Manager

SCARBOROUGH ECONOMIC DEVELOPMENT CORPORATION

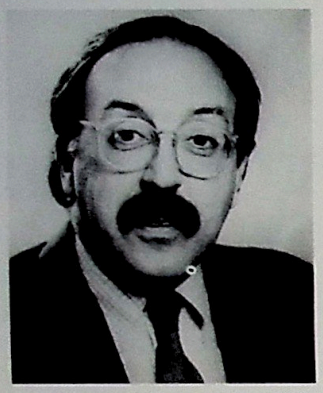
July 1, 1988 to June 30, 1989

SEDCO

To the Town Manager, Town Council and Citizens of Scarborough:

SEDCO was incorporated in 1985 by the Scarborough Town Council as anon-profit development corporation to manage its economic development program.

Its mission is to: (1) market the existing Scarborough Industrial Park; (2) promote general business attraction and retention; (3) coordinate the Scarborough Route One Revitalization Strategy; (4) assist with the proposed Maine Turnpike Connector; (5) coordinate the town center project; (6) research future land development potential; (7) grantsmanship; (8) coordinate the Eight Corners Sewer Project Tax Increment Financing District.



Harvey Rosenfeld,
President SEDCO

As the new President of the Scarborough Economic Development Corporation, I am pleased to submit the annual report for the fiscal year ending June 30, 1989.

It is my goal to continue SEDCO's mission of attracting quality industrial and commercial development as well as assisting existing businesses in maintaining and expanding their operations.

Although SEDCO's activities were limited due to lack of full time staff during much of the fiscal year operations were maintained on a part-time basis by the SEDCO Board of Directors. The Corporation continued to provide site location and business development services during the year as well as continuing to respond to inquiries for information, assistance and guidance. With the hiring of a new president in May of 1988, SEDCO is now fully staffed to continue its operations into the new year.

We will continue to assist the Town with the Route 1 Revitalization Strategy, the Maine Turnpike Exit Six Connector, Tax Increment Financing Districts, Tourism and harbor studies and other projects as requested.

We remain committed to providing quality economic development planning to the Town of Scarborough. As the development of lots in the Scarborough Industrial Park goes on, we will continue to develop plans for a future industrial park, in order to insure the availability of quality jobs within the community. We have developed new systems to keep us up to date both with available land and buildings as well as other resources to assist both new and existing businesses.

I am pleased to report that SEDCO has received the Robert R. Masterton Economic Development Award from the Greater Portland Chamber of Commerce. The success of the Corporation is due in large measure to the support and cooperation of the Scarborough Town Council, Town Manager and staff and the positive reception of the business community.

Respectfully submitted,
Harvey R. Rosenfeld, President

Board of Directors:
James McBrady, Chairman
Paul Bureau, Vice-Chairman
John York, Secretary
Richard Cervizzi, Clerk

1988	$33,763.00	$2,877.00	$315.00	$139.00

Report of the TOWN PLANNER

July 1, 1988 to June 30, 1989

It is with great pleasure that I submit my annual report for the year ending June 30, 1989. The past year has been busy and interesting. Most of my time has been spent meeting with people interested in developing property in Scarborough, reviewing plans, reporting to the Planning Board and overseeing Code Enforcement and Engineering.

Joseph Ziepniewski,
Town Planner

During the past year, administration of the Land Use Regulations led to the review of five residential developments, 28 commercial/industrial projects, five public/quasi-public projects, six zone change requests and 16 Miscellaneous Appeals. During the past year the Planning Board approved residential proposals for 111 single family homes and 58 multiplex units.

Much has been accomplished for which I would like to thank my co-workers: Ken Dinsmore, Assistant Town Planner and Engineer; Phil Coolbroth, Code Enforcement Officer; Bill Weeks, Assistant Code Enforcement Officer; Carole Bristol, Secretary; and elected and appointed municipal officials.

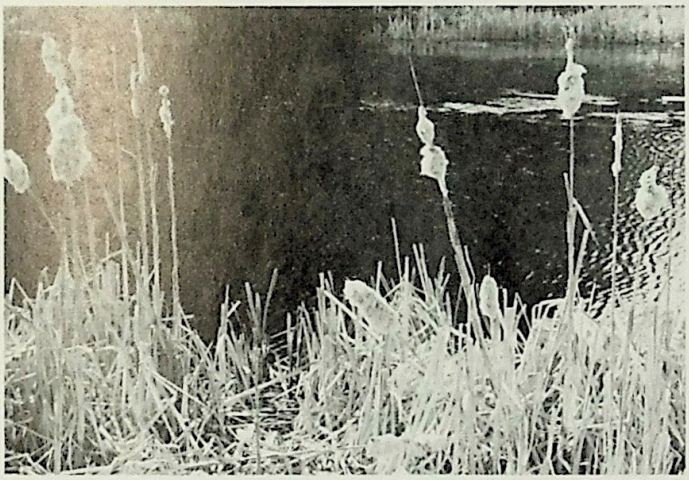

photo by John Snow

The Planning Department also spent time working on harbor planning, planning for the year round turnpike access and Route One traffic and land use.

Respectfully submitted,
Joseph F. Ziepniewski,
Town Planner

Report of the ZONING BOARD OF APPEALS

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

There were 75 appeals heard by the Scarborough Zoning Board of Appeals during the fiscal year 1988-1989.

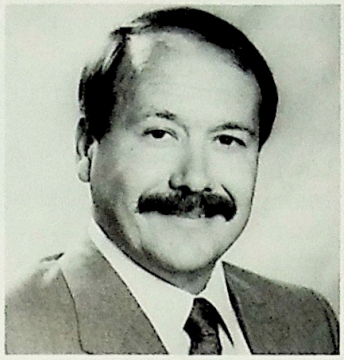
Sixty-seven appeals were approved, six were denied and five were tabled or withdrawn. Of the 75 appeals heard, 31 were Variance Appeals, 16 were Miscellaneous Appeals, 22 were Special Exception Appeals and four were Administrative Appeals. There was also one Flood Plain Variance and one Farmland Registration Appeal.

Respectfully submitted,
Richard Murphy, Chairman

Report of the TOWN ASSESSOR

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough



Paul G. Lesperance,
Town Assessor

It is a pleasure to submit to you the annual report of the Assessor's Office for the fiscal year 1988-1989.

This year, the tax rate was set at $28.00 per thousand dollars of value based on a taxable valuation of $351,527,300.00 The tax rate increased by 3.7% and funds raised from property tax increased by 12.1%.

The "Eight Corners" tax increment finance district had a captured assessment of $1,194,300.00 and a tax of $33,440.40 and the "Town Center Tif" had a captured assessment of $3,238,800.00 and a tax of $90,686.40.

Because of the ever increasing burden of the property tax, the subject of property tax relief has been a major concern to all involved in taxation from the local level on up to the state level. Many different solutions to the problem of high taxes are being discussed, such as "circuit breakers" and "homestead exemptions" for direct taxpayer relief, and increased state revenue sharing to ease some of the towns' budget burdens. Up to now, very little has been accomplished for any measurable relief but hopefully, 1990 will bring some good news for the taxpayer.

Work on the revaluation is progressing and should be completed for the 1990 assessment year. The new assessment will approximate current market conditions for all real estate and personal property assessed in the Town of Scarborough. The Town wide equalization of assessments will affect all taxpayers differently. For some the new assessment may mean a higher tax and for others it may mean a lower tax burden. It is difficult to predict the outcome until all the work is completed.

As always, our office is open to you for any questions you may have concerning property taxes for the Town of Scarborough.

Respectfully submitted,
Paul G. Lesperance, Town Assessor

Report of the TOWN CLERK

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

Laurel R. Spruce, *Town Clerk*

It is with pleasure, that I hereby submit to you the residents of the Town of Scarborough, the Scarborough Town Council and the Town Manager, a report from the Town Clerk's Office, for the twelve month period, July 1, 1988 through June 30, 1989, for your approval.

A General Election and the Municipal Election were conducted November 8, 1988.

The Town Council held 24 Regular Council Meetings along with one (1) Special Council Meeting during this period.

A total of 34 Public Hearings were also conducted by the Town Council during this time.

A total of 187 marriages, 88 deaths and 149 births were recorded in this Office throughout this period.

The following licenses were issued by the Clerk's Office for the Fiscal Year, July 1, 1988 through June 30, 1989: 8 Junkyard Permits, 1 Sanitary Landfill Junkyard, 70 Victualer's Licenses, 436 Dog Licenses, 4 Kennel Licenses, 33 Burial Permits, 546 Certified Copies, 3,455 Hunting & Fishing Licenses, 7 Pinball Machine Operators Licenses, 3 Mobile Home Park Operators Licenses, 137 Residential/non-Residential Recreational Clam License (1 peck per day limit), 23 Commercial Clam Licenses

Respectfully submitted,
Laurel R. Spruce, Town Clerk

Report of the FIRE DEPARTMENT

July 1, 1988 to June 30, 1989

To the Town Manager, the Town Council and the Citizens of Scarborough

Robert Carson, *Fire Chief*

It is with great pleasure that I submit the annual report for the Scarborough Fire Department for the year ending June 30, 1989.

The Scarborough Fire/Rescue Department, again, has experienced an ever-increasing request for services which totaled an unprecedented 1440 incidents during this last fiscal year.

We are continuing, with the support of the Council and townspeople, to work toward providing day drivers in all of our stations. We will assign a driver to the Pleasant Hill station on 1//1/90, and, we hope to complete the full day coverage within the next two budget years.

The positive effect of this day coverage on our personnel and area employers has been very dramatic. It has provided relief for our "day call" people at their jobs and reduced financial loss for their employers as well.

Effective 10/23/89, the Scarborough Rescue will employ its fourth Emergency Medical Technician which will allow us to provide one Advanced Tech on a 24 hour basis for the first time. The volunteer rescue members, along with available student rescue members, are the core of the responder system; and, hopefully, this will continue for many years to come, with the support of the full time staff.

Our department now maintains an effective Fire Prevention Bureau which encompasses Fire Prevention Inspection and Community Training Programs on request. We also work very closely with the Scarborough Police Department on Juvenile Fire Setter and related community problems.

I will, at this time, make a community wide appeal to all of you to consider the Scarborough Fire Department and Rescue Unit as a worthwhile organization with which to associate yourself.

We are a "call" (or volunteer) department with growing responsibilities. Even though we are providing coverage at the most minimal level, i.e. one-day firefighter, five days a week in some stations, and one EMT on duty; we want and need your time.

In some companies the roster is seriously depleted, and your presence could make a big difference. Please give us a call for more information. One person does make a difference.

Respectfully submitted,
Robert Carson, Fire Chief

SUMMARY OF FIRE INCIDENTS

YEAR ENDING June 30, 1989:

First Alarms sounded	590
Second Alarms sounded	1
General Alarms sounded	0
Rescue Alarms sounded	849
TOTAL	**1440**

Year-end Breakdown of Incidents and By-District Response of our Fire/Marine/Rescue Unit Coverage

BREAKDOWN OF INCIDENTS FOR 1988-89 AND 1987-8

	1988-89	1987-88

Report of the POLICE DEPARTMENT

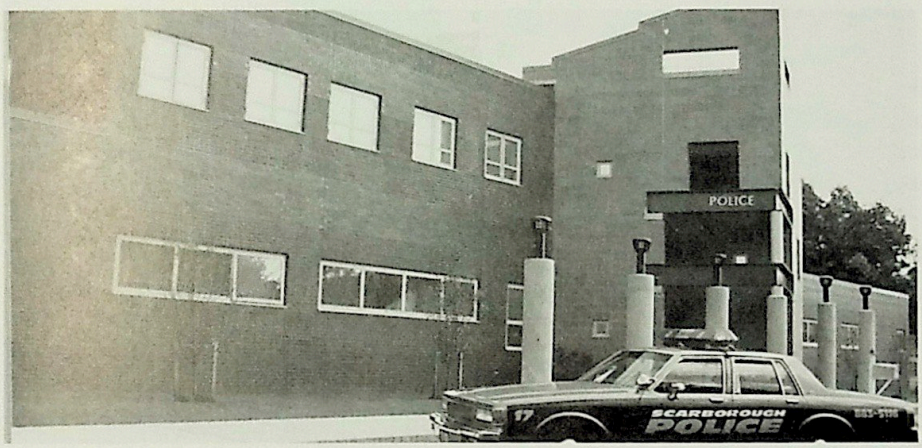
July 1, 1988 to June 30, 1989

To the Town Manager, the Town Council and the Citizens of Scarborough

Hollis G. Dixon,
Chief of Police

The past year has been an extremely busy year for the Police Department and one of the most exciting and rewarding as well.

With the start of the year came the beginning of construction for our new police station and by the end of the year, we had completed our move into the new facility. The construction project was classified as the construction and renovation of the Scarborough Public Safety Facility. It included the construction of a new building to house the police department, an addition to the Engine Seven fire station and the renovation of the old police department space as expanded administrative office space for the fire department.



With the construction came many extra hours of meeting and working with the Architects, the Clerk of the Works and the contractors to ensure that the final product would be a well constructed, efficient and functional facility. Having settled into our new building, it is now apparent that, in fact, it is just that.

It was also a very busy year in terms of police work with substantial increases in criminal activity, traffic related problems and overall calls for service. Although it was difficult trying to work out of a facility surrounded by construction equipment and constantly being required to make changes in our operation, our employees were excited about the construction being underway and remained highly motivated to perform their normal duties. Some of the motivation came from the fact that their input was recognized as an important part of our decision making process as we tried to make our new quarters as efficient and functional as possible.

On behalf of all of the members of the police department, I thank the Town Manager, the Town Councillors (former and present) and all the citizens of Scarborough whose efforts and support made this project possible. Personally, I want to publicly thank all of the employees of the police department for their cooperation, hard work and particularly for their ideas. It is only through their input and participation that we were able to set up a police station which is the envy of many of the police agencies in southern Maine.

Operationally, the department was very busy, as previously stated, with a dramatic increase in our index crimes (these include: murder, rape, robbery, assault, burglary, theft and arson cases). As throughout the nation, we saw an increase in violent crimes. These increases brought about a greater effort in our investigative work which resulted in an increase in our clearance rate as well.

During the year, we continued to maintain a traffic law enforcement program throughout the community in an effort to decrease motor vehicle accidents on the streets and highways of our town. We were able to increase our enforcement substantially during this period and this resulted in a slight reduction in our accident rate.

By far the most exciting new program which was implemented by the police department (with the support of the school department) was our D.A.R.E. program. Our Youth Aid Officer initiated this Drug Abuse Resistance Education program in each of the fifth grade classes in the Scarborough school system with a seventeen week curriculum. Reactions from the students, teachers and parents tell us that this program is being well received and we believe it will make a difference in the future. DARE will be continued in our schools and we will make every effort to expand this program to other grades as soon as possible.

During the past year we were able to bring the department back up to full strength and have all of our new officers academy trained and certified.

continued next page

POLICE DEPARTMENT Report continued

The following figures are offered to show some of the activities handled by your police department during the past year:

TRAFFIC LAW ENFORCEMENT:

Motor Vehicle Accidents	834
Traffic Summonses	2,973
Traffic Arrests	622
O.U.I. Arrests	167
Juvenile O.U.I. Cases	6
Warnings Issues	3,826
Defects Issued	2,903
Total Traffic Stops	**8,725**

CRIMINAL INVESTIGATIONS:

Total Index Crimes	641
Index Crimes Cleared	254
Adult Arrests	132
Juvenile Arrests	56
Value of Stolen Property	$421,652
Value of Property Recovered	**$150,828**

TOTAL COMMUNICATIONS CARDS 20,072

Additionally, there are many other calls for our services and related activities which keep our officers and dispatchers busy during the year.

In closing, I want to sincerely thank the citizens of Scarborough who have supported the police department in the long process of obtaining our much needed, new public safety facility. I also want to thank the many employees of the other town departments who work with us on a day-to-day basis and whose cooperation and assistance means so much to us as we struggle to serve the needs of the community, often under very difficult circumstances.

Respectfully submitted,
Hollis G. Dixon, Chief of Police

Report of the PUBLIC WORKS DEPARTMENT

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

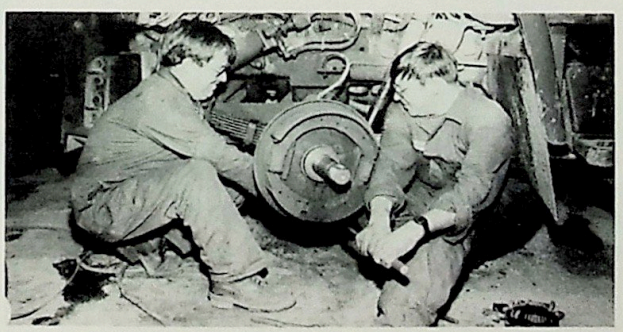
William Giguere,
Director of Public Works

The 1988-89 winter was a relatively snowless winter, but we did receive our fair share of frozen precipitation that demanded extensive sand and salt operations. It is assumed by many that open winters automatically mean dramatic cost savings, but this is not true for Scarborough.

Towns and cities with an urban center realize substantial savings due to limited snow removal operations that are very expensive. Scarborough does not fall into that category; our challenges lie elsewhere. We are essentially a rural community that is a gateway to the urban center of Greater Portland. This interprets to a large volume of commuter traffic on our road system to and from Portland which demands extensive sand and salt operations to provide safe passage for everyone.

The bulk of the 3,824 overtime hours during this year were expended on winter operations; and when you consider the Department's use of approximately 4,000 yards of sand and 2,143 tons of salt, the results prove to be an expensive winter.

The Department experienced very little expansion with regard to personnel and equipment. The emphasis this year was in the vehicle maintenance area. Long range maintenance goal of the Department is to conduct a comprehensive vehicle maintenance program that will increase the life span of all equipment. With the ever increasing cost of vehicles and equipment, the Department strongly believes that a sound maintenance program will result in cost savings due to fewer purchases of equipment. This year's budget reflected this philosophy with the purchase of specialized maintenance tools and equipment for the sum of $23,000.00 The Department also hired an additional mechanic whose workload and wages will be shared equally by the Public Works and School Departments.



The Department takes pride in its effort expended on the expansion of the recreation facilities at Peterson Little League Field off Old Blue Point Road. The future site of two additional ballfields and one soccer field had been used as a storage site for a variety of construction earthworks. Both the regrading of the existing site and the installation of cover material for the storm drainage system proved to be a major effort for the Department.

The decision to install the storm drain system exemplifies well thought out foresight on the part of the leaders of the community. This decision eliminated an extensive drainage ditch that bisected the site and would have prevented the development of the area to its full potential. The Department was able to "scrounge" a substantial amount of free excess fill material from local contractors who were doing site development work within the community. The Department handled in excess of 15,000 yards of material for the project that resulted in substantial savings to the Town.

The State has added emphasis to the Solid Waste issue by mandating recycling into law. This new law and the purchasing of a regional demolition site in Gorham, Maine, by Regional Waste System means that the solid waste issue has been moved from the back burner to the forefront, with all it challenges. The issue to be resolved by the Town is the type of process that we will use in handling the material. Two methods that are presently used in recycling are the door to door system, similar to our present household rubbish pick-up,

or a centrally located transfer station where the burden of disposal falls upon the individual to transport the material to the transfer station and then it would be transported to the Gorham site. Possible materials to be recycled include glass, cans, plastic, paper, cardboard, tires, white goods, iron and demolition debris.

In addition to the perennial maintenance projects that are our responsibility, such as ditching, paving program, beach care, and "all other duties assigned", the Department installed new fuel tanks at the future garage site in the industrial park. The project was timely insofar as the Department is now in compliance with the Department of Environmental Protection mandated "removal of old fuel tanks" program. The installed fiberglass 10,000 gallon tanks have a life expectancy of thirty years and should prove to be a good investment against any premature leaks that could result in a negative impact upon the environment.

Report of the SCHOOL DEPARTMENT

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

We have all experienced the true meaning and value of good neighbors and, moreover, we have felt the support of a community pulling together for the education of its youth.

Shirley P. Grover,
Superintendent

While one's tendency might be to "write off" the nightmares the year brought, one must not be too quick to discount the entire year and consequently overlook the progress that was made during the year. Without a doubt, asbestos and its related abatement issues marred the construction project, derailed the normal operations of the school year at the high school level and overshadowed our efforts to continue to improve the schools.

When one reviews the 88/89 fiscal year, however, evidence of the year's progress becomes obvious. We are confident that as you read through this report, you will be convinced that our schools continue to improve.

We hope that you will also, once again, be able to see the effects of your involvement and support.

With each passing year, we increasingly recognize the necessity, value and benefits of our partnership and your deep level of commitment to quality education. Only with you as partners can we guarantee continued improvement in our schools.

■ A PLAN

In the third year of our five year school improvement plan, we begin to see significant results. Many of our scheduled activities have been successfully completed and have contributed to the accomplishments of our set objectives.

We appear to be doing quite well. In fact, a Maine Department of Educational and Cultural Services school approval team so stated upon completing a mandated comprehensive school review process. After a three day visit whereby the state team reviewed advanced requested documents inclusive of our school system's written policies and curriculum for compliance requirements, interviewed members of the school improvement teams, a sample of parents, teachers, administrators, and inspected each school building, they granted Wentworth Intermediate school full approval status and all other schools provisional approval status.

They also observed and commended us for such activities as the effective use of the school improvement planning process and its resulting plan, a well organized K-12 curriculum revision and development plan, a philosophical basis for curriculum development which focuses on a holistic approach to teaching children and young adults within the system, a staff development plan which provides numerous opportunities for staff to improve their teaching skills and share their learning with colleagues, and initiatives such as Project SEE, the high school study center, individualization of instruction through the G.O.L.D. program and multi disciplinary teams which focus on the instructional and experiential needs of preschool and in-school youth. They also commended the deliberate progress made by the system to implement recommendations and requirements contained in the 1985-86 visiting committee report and the progress made toward upgrading maintenance of the school system's school facilities and the district wide maintenance plan.

continued on next page

SCHOOL REPORT continued from page 20

Moreover, they commended the community's strong support for schools as evidenced by positive support of the system's budget, the Leadership Corps partnership with Hannaford Brothers and the Scarborough Police Department Youth Officer Program.

While our internal measures of our accomplishments are probably more meaningful, we must not minimize the state department of education's assessment of our standing. School approval is not only necessary, but desirable.

■ **At the K-2 and 3-5 LEVELS,** parental choice of instructional programming has become a reality. Primary and intermediate parents are now able to select either a traditionally graded program or a non-graded multi-aged developmental program for their child.

■ **IN GRADES 6 THROUGH 8,** a middle school is clearly evolving in response to students' needs. The school's organization and activities have been designed to support the middle school students' social, emotional, physical and intellectual growth during difficult and turbulent years.

The "team or house" structure gives students smaller, more conducive and supporting surroundings and promotes a close working relationship between students and teachers. Exploratory programs serve to engage students in a variety of learning experiences. Teachers, administrators, parents and students continue to work together to develop a school culture that will ensure the growth and development of students during the middle years.

■ **THE HIGH SCHOOL** teachers, administrators and students have spent the year more closely examining the learning needs of adolescents and the studying skills necessary for the year 2001. They seek to find a different and better way to structure the learning for high school students. Their search led to the writing, submission and ultimately the receipt of a state grant to pursue their thinking on behalf of 14 to 18 years old.

It is often said that with adversity, comes an opportunity. And so it was with the high school. Although their new concentration was often broken by the distractions of construction and the displacement caused by asbestos, they succeeded in securing a $50,000 a year grant for each of three years to investigate how to make teaching and learning more effective and efficient for high school students. They also had the benefits of going to school on a college campus for several months. The nightmares brought the lessons that life requires flexibility, adaptability, teamwork and good neighbors. The generosity of the people at Southern Maine Vocational Technical Institute taught them appreciation and the true meaning of family support.

■ **STUDENT CHAMPIONSHIPS**

Our middle school Future Problem Solvers once again won the right to represent the State of Maine in the international Future Problem Solving Bowl in Ann Arbor, Michigan. Although they became our state champions, all of our other competing students deserve our applause for showing themselves to be good team players and strong competitors. Each

SCHOOL REPORT continued from page 21

of our school teams worked hard again this year to play their best and to bring glory to their schools.

■ CURRICULUM

The quality of instruction has always been dependent on an effective curriculum, updated resources and trained teachers. Through the complex, cyclical and costly process, we persist in our work to define and update our curriculum, identifying supporting resources and arranging for teacher training. This year, curriculum committees were in place to study, complete and/or revise portions of social studies and to locally develop a hands-on science curriculum. Individual staff members also continued to integrate the curriculum.

New studies were initiated in drug abuse resistance. Through a joint venture with the local police department, a new program called D.A.R.E. was introduced to fifth graders by a local police officer. We

purchased new textbooks in social studies, economics and physics. We also bought other learning resources such as math manipulatives, computers, trade books and library references to assist children in their learning.

■ STAFF DEVELOPMENT

The staff development committee has increasingly promoted inservice activities for teachers. They planned workshops, curriculum days and other training activities with great success. This year specific training was offered in the teaching of study skills, mathematics, writing, and how to support children's development through the matching of teaching strategies to children's learning needs and styles.

■ GRANTS

We proceeded to write and secure grants to provide additional funds for staff development, a restructuring project and various curriculum enhancements. At the elementary levels, grant monies advanced the training of teachers in the areas of science and leadership.

Additionally, an Exxon Foundation grant served to allow the collaboration of Scarborough and two other school systems to improve instruction of mathematics in the primary grades. As noted earlier, the high school's efforts to examine different ways to structure and organize learning for adolescents were supported by the receipt of a three year state gran totaling $150,000. A philanthropic project was also funded by the Maine Community Foundation, which made high school students partners in identifying a charitable organization to become the recipient of a donation. System wide, smaller grants were also received by individual classroom teachers who sought to promote learning differently.

A good number of donations were bestowed on the schools. Gifts from individuals, groups and families ranged from color televisions, VCRs, a batting cage, a slide to bookstands, bookcases and financial contributions. Each donation is most appreciated by the students, staff and Board of Education.

■ SCHOOL FACILITIES

In September we broke ground for the high school addition. Our dreams of a new gymnasium, auditorium and new administrative spaces were on their way to becoming a reality along with our plans to renovate existing spaces in the spring. Reality quickly became a "nightmare" however, when the school system was struck with the latest findings of asbestos studies. The new federal and state laws regarding the removal of asbestos when disturbed by construction turned dreams, planning, scheduling,

continued on next page

SCHOOL REPORT continued from page 22

teaching, learning and family life into a highly charged and emotionally trying year and left us with the heavy financial burden of abatement costs.

To facilitate the asbestos abatement and continue the construction project, the high school students and staff relocated themselves at Southern Maine Vocational Technical Institute for the last few months of school and the community once again pulled together to lend its support.

With the guidance of a new buildings and grounds manager, we devised a facilities maintenance and improvement plan that would get us into compliance with new state and federal requirements. The first of such work included the removal of underground storage tanks as directed by new Departmental and Environmental rules and the re-engineering of roofs scheduled to be replaced as required by the Bureau of Public Improvements. While removing the underground storage oil tank at the high school, we decided to convert the high school to natural gas.

Ongoing was our annual scheduled work to replace and install classroom carpets, repair broken windows, replace doors and repaint classrooms. Much was accomplished in spite of the upheaval and the extra demands placed on our custodial and maintenance crews by the high school's relocation.

■ CONTRACTS

Labor negotiations were once again successfully undertaken. All collective bargaining units completed the negotiation process and signed agreements. Most notable of these agreements was the ratification of a three year contract with the Scarborough Education Association, the bargaining unit for the school system's teachers. Also ratified was a two year contract with the Scarborough Education Support Association, a unit inclusive of secretaries, teacher aides and assistants. In addition, job descriptions for co-curricular stipended positions were developed and a new payment schedule was devised.

■ STUDENT ENROLLMENT

The number of elementary students rose as predicted. Portable classrooms were built to temporarily house students and programs. Responding to the need for future housing, the Board of Education created a Long Range Planning Committee to study and make recommendations for the housing of K-8 students. The enrollment data shown on the following page was gathered for your information.

Overall, the 1988/89 school year could easily be called "trying", but certainly people did not fail and our schools did continue to improve. More importantly, we witnessed the ability, commitment, cooperation and determination of the staff and students and the support and willingness of this community to assure success. We have all experienced the true meaning and value of good neighbors and, moreover, we have felt the support of a community pulling together for the education of its youth.

On behalf of the Board of Education and the entire school system, we thank you for all that you do.

Respectfully submitted,
Shirley P. Grover, Ed.D.,
Superintendent of Schools

Report of COMMUNITY SERVICES

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

Scarborough Community Services exists as an active organization, open to continual change and responsive to the community's needs. Its purpose is to serve as a vehicle to maximize the efficient and cost effective delivery and coordination of services to the community. In addition, the Community Services office serves as a clearing house, providing information on available services and referrals to other agencies.

The Community Services Division is governed by a Commission which consists of two members of the Town Council, two members of the Board of Education, the Town Manager and the Superintendent of Schools.

Eleanor Lockwood,
Director, Community Services

Bruce Gullifer,
Asst. Director, Community Services

Community Services Responsibilities

- Recreation programs for children, adults and senior citizens
- Education programs for adults and children
- In-service training
- Afterschool Child Care
- Public information services
- Maintenance of school, Town and recreational grounds
- Facilities scheduling

COMMITTEES

- Hunnewell House Committee
- Scarborough Harbor Committee
- Oak Hill Athletic Facility Committee
- Recreation Advisory Committee
- Old Blue Point Park Committee
- Adult Education Advisory Council
- Scarborough Cable Television Committee
- Scarborough River Committee

BUDGET

Developed and approved by the Community Services Commission and adopted by the Board of Education and the Town Council

	Adult Education	Community Services	TOTAL
Budgeted expenditures	$90,007.41	$275,086.63	$365,094.04
Actual expenditures	$91,709.81	$268,595.37	$360,305.18
Local revenues	$36,972.69	$122,881.13	$159,853.82
Other revenues	$59,340.92	$111,515.61	$170,856.53

Ending balance	**$20,574.57**	**($37,890.91)**	**($17,316.34)**

PROGRAM DESCRIPTIONS

❒ RECREATION

Programs are offered during the school year and during the summer months. Programs offered during the school year include:

❒ FOR CHILDREN:

PROGRAM TITLE	PARTICIPANTS
February Vacation Experience	60
April Vacation Experience	60
Learn to Ski	70
North Pole Calling	285
Easter Egg Hunt	250
Halloween Party (Co-Sponsor)	300
Youth Soccer	270
5/6 Grade Basketball	86
Boys Club Basketball	30
Winter Carnival	200

During the summer months an extensive summer recreational program is offered to children living in Scarborough. The Extended Day Program offers a variety of activities. Hours are 7:30 a.m. to 5:00 p.m. These hours serve the needs of the working parents. The Special Events Programs are a series of different events (Funtown, Circus, Rollerskating, etc.). Some of the other activities include soccer camps, basketball clinics, swimming lessons, track and field, tennis lessons, Outdoor Adventure, Kinder Program, gymnastics, baseball and softball clinics. The Extended Day Program had 115 participants and the Special Events, 210.

❒ FOR ADULTS:

Recreational activities are designed to meet the various needs of adults as determined by both the Recreational Advisory Committee and input from the community.

PROGRAM TITLE	PARTICIPANTS
Aerobics	91
Ballroom Dance	53
Healthline	88
Yoga	35
3/3 Basketball	84
Open Gym	150
Volleyball	100
Softball	120
Tennis Lessons	10

❒ FOR SENIOR CITIZENS:

Throughout the year, a variety of activities have been planned by Community Services to serve the Recreational needs of Senior Citizens.

PROGRAM TITLE	PARTICIPANTS
Wassamski Springs Cookout	25
Eagle Island Tour	38
Winnipesaukee Railroad Corp.	48
Winnipesaukee Cruise	48
Christmas Ride	45
Foliage Trip	42
Disney on Ice	46
Ice Capades	48
GlobeTrotters Exhibition Game	97
Burlington Shopping Mall	32

❒ EDUCATIONAL PROGRAMS FOR ADULTS

Educational opportunities are offered to adults through a variety of programs.

PROGRAM TITLE	PARTICIPANTS
Adult Basic Education	16
High School Diploma	11
GED Preparation / Testing	39
Learning Center Individualized Instruction	10
Vocational Courses	160
General Enrichment Courses	840

The Adult Education Program also offers support services to adults. These include tutoring, high school counseling, vocational counseling, pre-testing, basic reading program, and individual educational needs.

❒ OTHER PROGRAMS, SERVICES, AND ACTIVITIES

■ AFTERSCHOOL CHILD CARE

The Child Care Program opened in October 1987 at the First Congregational Church on Black Point Road. Children were transported by school bus daily for a structured activity program between 12:00 noon and 6:00 p.m. Forty-seven children from kindergarten through fifth grade participated throughout the school year.

■ PUBLIC INFORMATION SERVICES

Monthly Calendar: Community Services develops, prints and distributes a monthly calendar that includes a listing of sporting events, town meetings, town council meetings, school board meetings, and Cable special meetings. Calendar information is distributed through the Pennysaver to every household in Scarborough.

Quarterly brochures: Brochures describing recreational and adult educational programs are mailed to all Scarborough residents. The brochure also provides a means of describing specific programs in detail such as the summer recreational programs and the high school completion program. Distribution of quarterly brochure is 7,000.

continued on next page

COMMUNITY SERVICES REPORT continued

■ REFERRAL TO OTHER AGENCIES

Community Services has met with representatives from area social service agencies about their programs. A listing of agencies together with telephone numbers and addresses is maintained in the office to assist residents who may call for public service and welfare information. This referral list of agencies is updated through a publication provided by Greater Portland Council of Governments.

■ GROUNDS MAINTENANCE

Community Services is responsible for: mowing, aeration, fertilization, seeding, weed killing, and edging for all school grounds system-wide; pruning, trimming, and hedging is also done system-wide. Community Services also maintains Blue Point Park and Peterson Field. Resurfacing was done at Wentworth School which included 2 tennis courts; 3 tennis nets were also purchased.

■ FACILITIES SCHEDULING Over 4,000 facilities and ball field reservations were handled this year. This includes scheduling of parks, fields, classrooms, and gym space. We believe facility scheduling has improved over the last four years, but as the Town continues to grow, it is more difficult to adequately meet the increasing demand for our limited facility space.

■ SCARBOROUGH CABLE COMMITTEE

Community Services is responsible for the administrative support of the Scarborough Cable Committee. This support includes signing out equipment, typing and distributing minutes, purchasing equipment, and representing the Committee before the Scarborough Community Services Commission.

■ HUNNEWELL HOUSE PRESERVATION COMMITTEE

Community Services has provided administrative support to this committee by scheduling meetings, mailing agendas, writing and distributing minutes, obtaining bids for supplies and maintenance, and purchasing equipment. Mr. O'Donal from O'Donal Nurseries presented the committee with a comprehensive plan to maintain and upgrade the building and grounds. This was adopted by the committee and Town Council. This project will be done in phases. A grant, received from the Maine Conservation Corp, will allow for yearly maintenance of the grounds. Working with participants in the Cumberland County Training Resource Center's Youth Program will serve both to keep the Hunnewell House landscaped and provide job training for high school students.

■ OAK HILL ATHLETIC FACILITY COMMITTEE

This committee was formed by the Community Services Commission back in January, 1987. The committee's goals were to examine current athletic facilities and determine what additional athletic facilities Scarborough may need. The new maintenance building was completed with an adjacent skating rink and warming area, under the recommendation of this committee.

■ RECREATION ADVISORY COMMITTEE

This committee was established to help with new and on-going programs, and for the purpose of making recommendations to the Assistant Director for future programs.

■ OLD BLUE POINT PARK COMMITTEE

This committee was formed to help develop a comprehensive plan for the Old Blue Point Park. Through funds generated by developer contributions, we wrote and received a grant from the State for matching funds of $35,800.00. This park should be completed by the Fall of 1990.

■ CONTINUING EDUCATION ADVISORY COUNCIL

Among the goals of the Community Services Division are to serve educational needs of 1) school-age children; 2) adults; 3) business, industry, and 4) public agencies. The Continuing Education Advisory Council recommends course offerings to the Community Services Commission and the Board of Education. It has also addressed issues relating to needs assessment, program planning, and promotion of the educational programs. In 1988-89, the format and distribution of the Brochure was revised, new programs were added, and a survey was completed of the education and training needs of local business.

■ SCARBOROUGH RIVER COMMITTEE

After talking with the Department of Comprehensive Planning and the Town Manager, Community Services approached the State asking for the donation of the 51 acre parcel on the Pine Point Road. This parcel of land had been a golf course years ago. The State granted this request and donated the land to the Town with the provision that this land remain open space. Future plans for the area may include nature trails and cross country skiing trails. More work needs to be done before developmental plans will get started.

Respectfully submitted,
Eleanor Lockwood, Director
Bruce Gullifer, Assistant Director

Report from the PUBLIC LIBRARY

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

Nancy Crowell,
Librarian

A new library building was started in April, 1989. The building design by Portland Design Team was accepted in July, 1988, and George D. DiMatteo Company was selected as the project contractor. The 12,000 square foot building is being constructed and furnished with a $1.5 million budget. The Town Council approved a $600,000.00 appropriation for the building and approved a ground lease with the Board of Trustees for the new library site. A fundraising campaign and the sale of the building on Black Point Road will raise $900,000.00 toward the project costs. The new library will be ready by Spring, 1990.

The library is proud to have received three important grants this year. The John D. and Catherine T. MacArthur Foundation gave us a grant of $3,000.00 worth of videotapes containing educational programs from the public Broadcasting System. The tapes are available for individuals and groups to use.

Aetna Insurance Company provided us with funds for a collection of paperback books available to adults who have limited reading skills and to literacy tutors and their students. The grant also provided training for the library staff to better serve the adult new reader.

A third grant allowed us to offer an adult reading and discussion program concerning the Bicentennial of the signing of the U.S. Constitution. The grant from the New England Foundation for the Humanities provided all of the funding for books, materials and a scholar to lead the discussions.

Our ongoing library service was improved this year by the opening of the library on Sundays. Also, Children's programs were expanded with the addition of two more storytimes. Stories were available to 3,4 and 5 year olds on Wednesday mornings or afternoons and to 5 and 6 year olds on Tuesday evenings.

Programs are an important compliment to our service of providing materials for reading, viewing or listening. The summer was loaded with very well attended programs, many planned around our Children's summer program called "Tales and Trails of Scarborough." Coordinated by Children's Librarian, Susan Winch, the programs included a bus tour of Scarborough, a walk through the Scarborough Marsh, a tour of Winslow Homer's studio, a tour of the Winslow Homer collection at the Portland Museum of Art, a tour of the Hunnewell House, a visit from Mr. Stubbs, a clown with Big Apple Circus and a performance by Anne Davidson and Rick Charette. Help with these programs was provided by the Maine Audubon Society, the Portland Museum of Art, the Portland Concert Association, Doris Homer and the Scarborough Historical Society.

We have experienced an increase in use this past year. We loaned 52,961 items, a 17% increase in the use of our collection of books, magazines, audio and video tapes, records, puzzles, posters, toys and cameras. 1,165 new borrowers registered for cards, a 19% increase over the previous year. Our collection now contains 29,197 items. While this is 1,320 more than last year, our collection size remains below the minimum standard recommended for a community of our size.

New staff members joining us this year include Deirdre Larson, Circulation Librarian. Also joining us in part-time positions were, Sandra Hartford, Reference Librarian, Jacquelyn Knight, Circulation Desk

LIBRARY REPORT continued

Assistant, and Jeannine Reny and Melinda Garcia, Pages. Very important to the smooth operation of the library this year were a number of volunteers. They assisted us with clerical and programming activities and contributed hundreds of hours of service.

We look forward to our ninetieth anniversary of the founding of the library. This coming year we will celebrate our 90th in our new building with community support and use at their highest points in our history.

Respectfully submitted,
Nancy E. Crowell, Librarian

Report of the Welfare Department

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

Lucille Brochu,
Welfare Director

The General Assistance Program is a service administrated by Scarborough for the immediate aid to persons who are unable to provide the basic necessities essential to maintain themselves or their families. Title 22, M.R.S.A. Chapter 4031 of the Revised Statutes mandates that every community maintain a general assistance program. This chapter also states that the Department of Human Services shall annually review the administration of general assistance in each municipality to assure compliance.

Funding for the Welfare Department is through the local property tax. If Scarborough incurs net general assistance costs in any fiscal year in excess of .0003 of the Town's state valuation as determined by the State Tax Assessor, the department of Human Services will reimburse the community for 90% of the amount of such expenditures. The fixed ceiling was set at $70,575.00 before any reimbursement could have been received.

The Welfare Department recognizes the need to prevent dependency and to encourage dignity, self-reliance and self-maintenance so the incentive to work is encouraged at all times.

Qualified applicants must demonstrate they are available for work and are actively seeking employment. Each recipient will be responsible for applying for no less than five (5) jobs per week, or participate in a job training program. These requirements will be a condition of eligibility for subsequent assistance. This does not apply to any person who is elderly, physically or mentally ill or disabled.

	1988-89	1987-88
Expenditures	$23,341.76	$22,014.52
Number of Families Assisted	89	80
Number of Persons Assisted. .	238	202

Respectfully submitted,
Lucille E. Brochu, Welfare Director

Report of the Historical Society

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

The Scarborough Historical Society was formed in 1961 through the foresight of Dorothy and Clarke Libbey who saw Scarborough's history in the form of antiques trickling away to antique dealers and collectors -- many outside of our state. Clarke and Dorothy contacted people from all parts of Town to gather at the Town Hall for the purpose of organizing a historical society to preserve and protect Scarborough's history and artifacts.

After a brief stay at the old Libby School, the society grasped the opportunity to open a museum in the old fire barn at Dunstan. (Originally, it was a trolley generator house.)

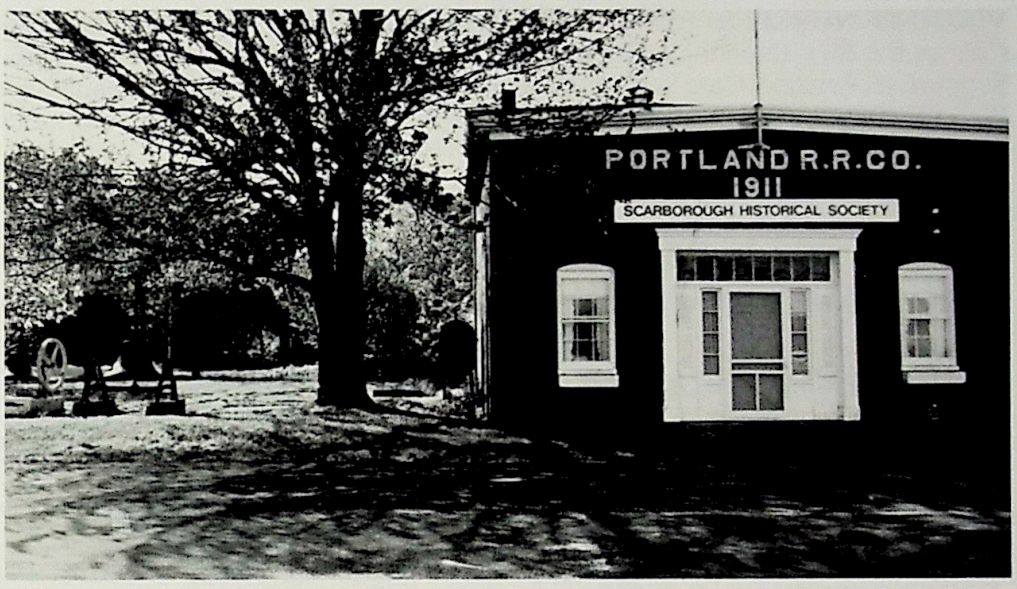

photo by Carole Bristol

Since that time Dorothy and Clarke, and more recently other members, have encouraged people having artifacts and history to donate them to our museum so that they may be preserved for all citizens to enjoy. Every year school classes from Scarborough as well as individuals from all over the U.S. visit our museum.

A group of volunteers financed and ran the society and museum so that it was completely self-sustaining for many years. In 1988, we were faced with several problems. We had a roof that, despite our attempts to repair it, continued to leak. Our furnace (secondhand, when installed) was giving us trouble and violated safety codes. There was no plumbing in the building so that we had to carry all water that we used. Our electrical system did not meet codes. We had no alarm system and the outside of our brick building was beginning to deteriorate despite our members constant efforts to maintain it. Our group of volunteers could not do all the needed work themselves nor could they raise enough money to hire it done.

After much deliberation, the society appealed to the Town for financial aid. In the last two years, the Town has helped us solve the roof problem, install a new furnace and plumbing through a small addition, upgrade the electrical system, and begin the installation of an alarm system. This boost from the Town has helped us upgrade our museum building to meet most codes. The members appreciate this very much. The society still finances most of its expenses through voluntary contributions.

file photo

The museum is open Tuesday mornings from 9 a.m. till noon, weather permitting, and by appointment. Our meetings are the first Wednesday of each month from September to June. We welcome visitors and new members. We also accept donations including information dealing with the Town and its people - past and present - as well as artifacts.

For further information, call any of the following: Wendell Whitten, 883-6159; Anna Delaware, 883-2371; Rebecca Delaware, 883-3539

Respectfully submitted,

Report from COMMUNITY HEALTH SERVICES

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

Community Health Services, Inc. wishes to express its appreciation for the continued support given by the Town of Scarborough. CHS, a voluntary, non-profit United Way Agency, provides the following medical services to Scarborough residents in their homes: VISITING NURSE & HOME CARE SERVICES: Care of the Sick (Nursing & Rehabilitative Services; Supportive, Personal Care Services; Care of the Dying. PREVENTIVE & PROTECTIVE PROGRAMS: Parent & Child Health, including Rural Teen Projects & Child Health Conferences.

The request by Community Health Services for 1990 to the Town of Scarborough is for the amount of $23,100.00 As the population in Maine grows increasingly older, the demand for Home Health Services is also increasing, and the cost of maintaining and recruiting qualified medical personnel to service these needs is growing at a faster pace. Your continued support will allow your community access to our full range of essential health services.

Report of the SHELLFISH MANAGEMENT COMMISSION

July 1, 1988 to June 30, 1989

To the Town Manager, Town Council and Citizens of Scarborough

It is with great pleasure that we submit our annual report for the year ending June 30, 1989. The past year has been an outstanding year for the shellfish industry of Scarborough.

In the fall of 1988, the Committee arranged for the transplanting of seed clams from Brunswick into the Scarborough area. The estimated time of harvest of these clams will be the late spring of 1990. This was very successful in the past and everything indicates another successful project.

The efforts of our Committee and Conservation Officer, Dick Haehnel, resulted in our first new opening of shellfish areas in Scarborough. Thanks mostly to our water quality program and Mr. Haehnel's excellent work, our open areas were increased by one third with the new opening in the spring of 1989.

In the fall of 1988, Officer Haehnel and Shellfish Committee members worked very closely with Scarborough High School on a number of projects including the completion of our Tidal Nursery. We would especially like to thank Bruce Munger and Judith Stanhope, both teachers at the High School, for their help in achieving the educational goals of our Committee. We all look forward to continuing our relationship with the Scarborough schools in the future.

The operation of our Tidal Nursery for growing seed clams has been a great success. We purchased approximately one million seed clams. With a grant from the Maine Aquaculture Center, this project should be very successful for years to come.

In conclusion, the Shellfish Committee would like to thank all the people of the Town and especially Officer Haehnel and the Scarborough schools for their support in making this a tremendously successful year. Much has been accomplished in fiscal year, 1989, with the future looking even better.

Respectfully submitted,
Peter Angis, Chairman, Scarborough Shellfish Committee.
